

SPOTTED LANTERNFLY WORKSHOP

Please join us for an educational workshop on the Spotted Lanternfly (SLF)

SLF is a serious invasive pest that feeds in large groups on a wide range of plants including grapes, peaches, apples, walnuts, oaks, and maples. The feeding damage stresses the plants which can lead to decreased health and potentially death. SLF can be a significant nuisance, affecting the quality of life and enjoyment of the outdoors.

Luzerne Conservation District in partnership with Penn State Extension Educator, Vinnie Catrone, will be holding an informational workshop to inform the public of this pest and provide a tool to help in controlling the SLF.

FREE EVENT!

WHEN

**Tues, Sept. 26th
6:30pm-8pm**

WHERE

**Wilkes University
Henry Student Center
Jean & Paul Adams
Commons (JPAC)**

**84 West South Street
Wilkes-Barre, PA 18766**
